

Court was concerned with a case where applications were invited for [appointment](#) to the post of Lecturer in MCA, from candidates holding a post graduate degree in the "relevant subject". As a matter of fact, this Court found that candidates with Masters' degree in Computer Applications were available, but a candidate with Masters' degree in Mathematics was selected. This Court found fault with the decision of the Board of Appointment in selecting the candidate with a Master's degree in Mathematics with a flawed reasoning that Mathematics is one of the subjects taught in MCA.

**Ganapath Singh Gangaram Singh Rajput v. Gulbarga University, (2014) 3 SCC 767**
